### Nation's Fighting Power to Be Almost Doubled

Washington, April 23.—(AP) The army swung today into a drive to virtually double its actual fighting strength as the first move in the program which congress has authorized in a bill appropriating \$20,000,000 for the purpose. The war department announced that the enlistment of 31,700 men from 18 to 35 years will begin July 1.

The announcement came as the nation's legislators, told by a house leader that war clouds are "hanging over Europe," gave attention to two bills to spend \$570,000,000 on other parts of the country's fighting machine, the navy and air forces.

The army's actual fighting strength, not counting non-combatant units such as medical corps, is approximately 50,000 men. The bill calls for an eventual increase of 46,500 combatants.

## IS DISCUSSED

### Melton In Address to Kiwanis Club

Agricultural plans as sponsored by the federal government under the agricultural adjustment administration were discussed by W. O. Melton, county agent, at today's meeting of the Conway Kiwanis Club.

According to Mr. Melton, the government program is being opposed by the industrialists who utilize labor only as long as it is profitable. Increased agricultural production during the war, the speaker said, left 80,000,000 acres of land in cultivation which were not needed. The aim of the AAA is to adjust this surplus farm production.

The processing tax, according to Mr. Melton, pays for itself and does not take money from the federal treasury. The processing tax, Mr. Melton added, serves the same purpose to agriculture as tariff levies do to industry. The purpose of the Bankhead act, he concluded, is to put teeth into the federal program and will prevent the cheating of the government by unscrupulous farmers. Misses Mildred Patishall, Betty Ross Magness and Vivian Maddox, all of Central College, gave readings. They are pupils of Miss Atwood Hudson.

The Kiwanians discussed plans for some of their members attending the Kiwanis convention to be held in San Antonio, Tex., May 19 to 23.

the next six or eight months. State Bank Commissioner Marlon Wasson estimated today the state would be able to reduce its highway debt by \$1,700,000 on June 4. He said each dollar of principal paid off would save a dollar in interest over the 35-year period the refunding bonds will run.

"We expect to retire about \$1,000,000 in direct highway refunding bonds June 4," said Wasson. "We might retire as much as \$400,000 of road district refunding bonds and lesser amounts of 'B' bonds, toll bridge bonds and refunding certificates of indebtedness."

"If we can keep on at the present rate, and it seems that we should be able to do even better since gasoline tax collections ought to improve, the state can reduce its debt appreciably within the next few years. If so, I feel reasonably certain that when we come to the heavy maturity dates between 1943 and 1947 we will be able to effect a refunding of these excess maturities on a very favorable interest rate."

The state's debt paying ability has been responsible for improving the market for its securities, bond dealers said.

## TO OPEN MAIL STORE

### Bank Build. Rented

For the sale of its property, the dairy company in the county Bank building, today by C. T. Melton, the dairy work has been painting and redecorating interior and exterior which recently was owned by Wendell Henry, II, of the bank, moved the Bank of Conway

The new store will be Miss G. D. Hawkins, employed by the dairy for several years, will be in charge of the store.

It is noted that all the commodities would be on sale at low prices, including ice cream, milk, and a refrigerating unit in the building.

### Balks At Increase In Salary

At 24.—(AP) Dr. Fredrickson, president of the school board, today said he would not recommend a salary reduction for the school superintendent plan. He made it clear that the modification to discourage bondholders is being rejected. Dr. Kellogg proposed Dr. Kellogg's salary of \$2,000 and concluded that the plan drawn where they have been in force for nine months, five was done by so-called "half-punt" eight month's term follows. Allright and he felt that this was made in the new regulation would make it much easier to enforce the law.

## SALE OF HALF PINTS ALLOWED

### Wiseman Revises Regulations

Little Rock, April 24.—(AP) State Revenue Commissioner Earl Wiseman today issued supplementary regulations under the Thamp act regarding sale of liquor in half-pint packages. The new regulations, effective today, contained only 13 words as follows:

"All liquor may be sold in containers of not less than one-half pint." Wiseman said the ruling grew out of a series of conferences between him and State Police Sgt. Ray Albertson, which the latter urged the modification to discourage bondholders. He said that his observations had been that 20 per cent of bootlegging since the Thamp act became effective was done by so-called "half-pint" five month's term follows. Allright and he felt that this was made in the new regulation would make it much easier to enforce the law.

### Probe of Effect of Processing Tax Is Asked In Resolution

Washington, April 24.—(AP) A joint congressional investigation of the effect of the cotton processing tax was proposed in a resolution presented on the House floor today by Representative Fulmer of South Carolina.

The house agriculture committee today decided to exceed several members from the district, including new proposals for the secretary of agriculture in the Agricultural AAA amendment. It then voted to pass the amendments out, virtually unchanged otherwise from the form in which they previously were approved by the committee.

The amendments carry provisions for Secretary Wallace's experimental program authority to use the marketing board and a third of the nation's cotton receipts to aid in the marketing of cotton in foreign markets and extending the authority to license processors and distributors of food products to participate in government marketing agreements effect.

### Works Relief Set-up Is Handed By Lawyer

Washington, April 24.—(AP) Setting up the machinery through which the federal government will be set up to create jobs for the four billion dollar work relief fund, President Roosevelt Tuesday moved a step nearer the big spending program of his program.

The white house in a 100-word statement, elaborated the task of putting on all plans in front of Walter, a New York lawyer who for years has been a close advisor to the president. To handle the job, Walker Wednesday will return to the post he formerly held as head of the national emergency council. A new director of the council was set up to deal with the plans. Donald R. Koberger, who has been executive director of the council since Walker left a few months ago, will devote his full time to directing NRA.

Almost coincidentally with the announcement, word came from Secretary Baker that he would begin negotiations with labor leaders soon looking for a truce downward of the public works wage scale.

The secretary said recently that at work projects would have a uniform wage scale. When the nation speaks, it has a voice. The labor union had suggested that workers under the relief program be paid at least county wage which would average about \$50 a month with lower rates for posted jobs.

### Ranger Applicants Being Interviewed

Little Rock, April 24.—(AP) The state police commission today began a personal interview of applicants for the position of patrolman. The applicant and his family had been interviewed by the commission and began personal interviews with these.

## CAMP HALSEY IS INSPECTED

### Major Baylies Is Well Pleased

While on a tour of inspecting the CCC camps of Arkansas, Major A. L. Baylies, assigned to the southern Arkansas CCC district, with headquarters at Fordyce, today inspected the project work of Camp Halsey, which is attached to the soil erosion service project No. 17.

Major Baylies was accompanied on the inspection tour by Fred C. Newport, regional director of the soil erosion service program in Arkansas. After visiting the camp, Major Baylies and Mr. Newport made a general tour of the area inspecting in detail the various phases of the soil erosion prevention program being carried out by the CCC boys. Inspections were made of the various types of check dams, control ditches, terrace outlet structures, Bermuda grass plantings in eroded areas, locust tree plantings on gullied areas on steep hillsides, contour furrows in both turfed and cultivated fields, and the seeding of grasses in meadow strips to be used for terrace spillways.

Major Baylies was pleased with the variety of work he found the CCC boys doing and was well satisfied with the plan of using the camp men in soil erosion control.

### Conway Group Will Attend Road Meeting

A delegation of 15 to 25 Conway business men will attend a meeting of the Arkansas section of United State Highway 66 Association at Harrison Thursday. It had not been announced today the personnel of the Conway group, but will increase representation of practically all city organizations.

The meeting will be held in conjunction with the weekly luncheon of the Harrison Rotary Club, of which T. E. Milburn is president. State Senator Richard R. Thompson of Euless, Springs will preside. The road towns all along highway 66 from Springfield, Mo., to the Louisiana line are expected to have repre-
