### Italian Consulates Ordered Withdrawn

Addis Ababa, Sept. 7. (AP) Italian Minister Viner today ordered all Italian consulates in Ethiopia withdrawn.

The minister acted on orders received from Premier Mussolini. Diplomatic observers feared closing the Italian consulates meant Premier Mussolini was determined to go to war to settle the Italo-Ethiopian dispute despite decisions of the league of nations council at Geneva.

Rome, Sept. 7. (AP) A government spokesman tonight said that the Italian minister at Addis Ababa, acting on his own initiative, had withdrawn Italian consular employees throughout Ethiopia to Addis Ababa. He did this, it was explained, on his own initiative and not under orders of the foreign office. The action was taken because in view of the unsettled conditions in Ethiopia it was dangerous to continue the personnel in certain districts.

### RESENT REMARK BY MAGISTRATE

### Germans Protest Statement By Court

Washington, Sept. 7. (AP) The German government today lodged a formal protest with the state department today again in connection with the statement made by Magistrate Lam E. Hood in New York City yesterday when he dismissed charges against five men arrested in the Bremen incident.

The men had been charged with unlawful assembly after the swastika flag was torn down from the German liner Bremen at her New York dock on the night of July 26 and thrown into the Hudson river.

The protest was delivered to Secretary Hull by Dr. Hans Luther, the German ambassador.

Hull, state department official, reported later, told Dr. Luther that he would ask Governor Lehman of New York to forward a complete report of the episode for study and consideration.

### APPLICATIONS TO STATE BOARD

### 257 Approved For Old Age Pensions

The Faulkner county board of public welfare yesterday filed 257 old age applications with the state board. These applications are those selected by the county board for first consideration by the state board. Of these applications 103 were certified as needy cases from the FERA. The others were selected by the county board after they had been classified. The state board will meet next week and consider these applications.

The county board has been complimented by the state office on the classification of the applicants, and upon the fact that Faulkner county was the second county to file its approved applications.

To date 686 applications for old age pensions have been received and they are still being filed at the rate of seven a week. Of the 686 applications only 257 have been submitted to the state board for final action.

From the returns of tax collections it is thought that there may be more funds next month. In that case the board may allow 23 applications now carried as "border line" cases. The board hopes to complete its survey of cases in the rural districts and make a final classification of all applicants next week.

Applications are now being received for "unemployables" and 35 of these cases have been passed upon and checks are being sent out to them. The FERA certified 189 names to the county board August 15.

### WPA Project to Cost About \$600,000

Little Rock, Sept. 7. (AP) Dr. C. O. Braman, state director of rural research, and Bryan Fox, chief county accountant in the comptroller's department, worked today on the revision of a project providing for a land survey of Arkansas with WPA funds.

The original project was returned because it failed to meet WPA regulations regarding division of the state into eight districts, Sams said.

Sams estimated that the project would cost approximately \$600,000 and would take nine months to complete. He said it would be of "great value to the state in clearing up land books which often have presented complex problems."
